

# Students First Save Our School Buses

## Petition

**I want school bus service to continue and without any cutbacks.**

**I believe the State Legislature and Board of Education**

- **should put students first**
- **should insure the safety of all students**
- **should not increase traffic congestion for everyone**
- **should not unfairly penalize rural communities and neighbor islanders**
- **should not hurt all Hawaii families struggling already**

**I ask the State Legislature and Board of Education to continue school bus service.**

Any other plan or decision is unacceptable because it does not lead to a better education, higher achievement by students and it unfairly penalizes only an arbitrary group of Hawaii families.

These plans are unfair, unwise and unacceptable. I pledge to vote against all Hawaii elected officials who do not support continuing all school bus services.
